SETINA | 2022 | EQUIPMENT

SETINA

Designing For The Future

SETINA MANUFACTURING

Setina Manufacturing Company is Proud to Celebrate Nearly 60 Years of Innovation

SETINA'S COMMITMENT CONTINUING TO YOUR NEEDS

Founded in 1963 by John Setina, who had many years experience working with the Washington State Patrol Automotive Division, and in owning an auto body repair business before being recruited by the State Patrol.

John Setina in his workshop

HIS LEGACY CONTINUES

Although John is no longer with us, his legacy continues, with the integrity and old-fashioned family values he so strongly believed in.

Setina Manufacturing Company continues as one of the most respected names in Law Enforcement, and still sets the industry standards through Technological Advances and Innovative Designs.

Original Partition Designs

Original Push Bumper Design

SETINA

Nearly 60 Years Of Excellence

Dear Law Enforcement Community

It is our pleasure to share with you the latest 2022 Setina Featured Fleet Equipment. Much like the direction of our company, our new edition points toward the future of Law Enforcement, but also remembers the past. You will notice products ranging from the new cutting-edge, to the tried and true.

SETINA NEW AUTOMATED FACILITY

This Year We are Introducing a Variety of New Products

Thank you for taking the time to discover the new products Setina has to offer. We strongly believe that you too will agree that our innovative designs are the best to be found. We appreciate the long-lasting and trusting relationships that have been forged over nearly 60 years, and look forward to what the next 60 will hold.

Sincerely,
Setina Manufacturing

60 YEARS OF COMMITMENT

Driving Technology Forward

For nearly 60 years our Uncompromising Adherence to Excellence in Engineering has set the foundation for our Industry Leading Designs.

THE TOTAL LAW ENFORCEMENT

Taking Transport Seating to the Next Level

1

Laboratory testing is a Critical Part of Seat Belt Design and Performance. Setina's unique Center Pull Seat Belt Systems are Professionally Designed and Laboratory tested to meet 2007/210 FMVSS, Federal Seat Belt Safety Standards

Page 16

2

Setina's "SmartBelt" System

When the belt is Buckled, the seat belt retractor is "Electronically Locked" in "Retract-Only" Mode. When the belt is Unbuckled, the "Warning Light Activates".

Page 18

Model #12VS Rear Cargo Partition

Available with coated, Scratch-Resistant Polycarbonate or Expanded Metal.

4

The Setina Push Bumper

From our styled Original, Heavy Duty with our latest technology in "LED"s, our Superior Push Bumper Designs ensure Durability and Performance in the most extreme condition.

The Police Bike Rack

5

The Police Bike Rack is the latest in extendable design option for Push Bumper bike transport.

Page 11

Model #10-XL Does It All!

6

Based on our popular RP Series but with Xtra legroom. No rear leg or foot well obstruction. Recessed panel design, optimum for multiple weapon mounting systems and center consoles. Includes lower extension panels.

SETINA PUSH BUMPER

ECO-TREAT PROCESS

Protecting Our Environment

Setina's Environmentally Friendly "Eco-Treat" Process provides Superior Corrosion Resistance and Exceeds Automotive Industry PPAP Standards.

LABORATORY TESTING

In addition to knowing Setina has the highest quality finish and corrosion protection on our Push Bumpers, Setina has taken It to the next level with Independent laboratory testing.

Salt Spray And Scribe Testing

Hardware exceeds 3,000 hours of Continuous salt spray, 3 times the 1,000 hour industry standard against both white and red rust.

Gravelometer Testing

Testing for surface chipping caused from impact. Setina parts exceeded 2,000 hours, 2 times the 1,000 hour SAE, and ASTM standards.

UV Fade Resistance

Laboratory Tested Powder Coat Finish Exceeds the Automotive Industry, S4214 Method D559, South Florida Exposure Standards for UV Protection Against Fade, for Gloss and Color Stability.

PURSUIT PUSH BUMPER

A BODYGUARD PB450-L "LED" Lighted Push Bumper

Available with 2 or 4 LED lights.
High-strength aluminum.
For Sedans.

B BODYGUARD PB450-L-VS "LED" Lighted Push Bumper

Available with 2 or 4 LED lights.
High-strength aluminum.
For SUVs, Trucks and Vans.

A BODYGUARD PB400

High-strength aluminum or steel.
For Sedans.

B BODYGUARD PB400-VS

Full Grille Model
High-strength aluminum or steel.
For SUVs, Trucks and Vans.

A BODYGUARD PB300

Extra duty, high-strength solid core rubber horizontal push pad.
High-strength aluminum.
*For Sedans, SUVs, Trucks and Vans
SUV model shown.*

B BODYGUARD PB100

Available in 12" or 16" models.
High-strength aluminum or steel.
Available with optional hard rubber horizontal push pad.
For Sedans, SUVs, Trucks and Vans.

A WINCH READY BODYGUARD PB450L

Available with 4 LED lights
*Same Features as Winch Ready
PB400 for Trucks.*

B WINCH READY BODYGUARD PB400

High-strength aluminum or steel.
1/4" Steel Winch Mounting Plate.
Accommodates most standard winch models up to 12,000 lbs.
Mounts to vehicle's Recovery Hooks for added strength.
For Full Size SUVs and Trucks.

The Setina Difference

Superior Aluminum Design

- 40% Lighter Weight.
- Aircraft Grade, High Strength Aluminum.
- Optimum Fuel Economy & Weight Distribution for Better Control.
- Weight Reduction Reduces Vehicle's Front End Fatigue.
- Satisfies Auto Maker's Concerns on Front End Weight Limitations.
- Steel Models Also Available.

Proven Designs, Easy Installation

The PB450-L and PB400-L are completely factory preassembled and wired for quick and easy installation. Wiring is protected within the push bumper assembly.

Primer And Powder Coat Push Bumper Testing

Exceeds: ASTTM B117, Neutral Salt Spray Standards.

Exceeds: ASTM D2247, Humidity Resistance Standards.

Exceeds: Automotive Industry, S4214 Method D559, South Florida Exposure Standards for UV Protection Against Fade, for Gloss and Color Stability.

SETINA'S FIELD TESTED

Impact Resistant Fender and Headlight Guards

Professionally Designed for Law Enforcement

Setina Impact Resistant Fender and Headlight Guards are professionally designed to work with all models of Setina Push Bumpers.

Constructed of Heavy Duty Aircraft Grade Aluminum and Steel, Setina Fender and Headlight Guards provide added protection from costly damage to your Fenders, Grille and Headlights.

EVOC Tested for the P.I.T. Maneuver

Multi-Purpose P.I.T. Design provides Optimal Fender Protection during their everyday duties, and Maximum Performance during a controlled vehicle disabling P.I.T. Maneuver.

Primer And Powder Coat Testing

Exceeds: ASTTM B117, Neutral Salt Spray Standards.

Exceeds: ASTM D2247, Humidity Resistance Standards.

Exceeds: Automotive Industry, S4214 Method D559, South Florida Exposure Standards for UV Protection Against Fade, for Gloss and Color Stability.

LABORATORY TESTED FOR SUPERIOR FINISH AND CORROSION RESISTANCE PERFORMANCE

Our Fender and Headlight Guards are constructed of Heavy-Duty, Light Weight Aircraft Grade Aluminum and Steel. Our Advanced, Field Tested Designs continue to provide proven Value and Performance.

BODYGUARD PB5

Heavy Duty Impact Resistant (PIT) Fender Protectors.

Designed for PB100, PB300, PB400 & PB450-L Series Push Bumpers.

(Push bumper not included.)

PB5 SHOWN WITH PB450-L

BODYGUARD PB6

Heavy Duty Double Wrap-Around Headlight Guards with PB6 impact resistant fender protectors. Designed for PB400 & PB450-L Series Push Bumpers.

(Push bumper not included.)

PB6 SHOWN WITH PB450-L

BODYGUARD PB8

Heavy Duty Double Wrap-Around Headlight Guards.

Designed for PB400 & PB450-L Series Push Bumpers.

(Push bumper not included.)

The 450-L is completely factory preassembled and wired for quick and easy installation. Wiring is protected within Push Bumper assembly.

LOAD IT UP!

Maximize Your Setina Push Bumper Capabilities

Setina's New Police Bike Rack is the Latest Design in Push Bumper Mounted Bike Transport. Unique Folding Design for Quick Easy Mounting, Removal and Storage, and is Adjustable for Multiple Bikes.

Not Just for Police Bikes

Have you had to arrest a suspect with a bicycle? How do you transport both the suspect and the bicycle? Wait for a support vehicle? Get the Police Bike Rack, get it loaded and get on with your day.

Patent No. D933,579

Simple, Easy, Secure Mounting

- Collapsible Design for Quick, Easy Mounting Removal and Storage.
- Holds two Bicycles.
- Eliminates the need for second bike transport Vehicle.
- Easy "Hassle Free" Bike Loading.
- Stainless Steel Bolt Fasteners.
- Adjustable for nearly all bike types.
- Universal for fitment on most Setina Push Bumpers.

Low-Profile Design, Anti-Rattle

- Adjustable Anti-Sway, Rubber-Coated Bike Cradles
- Durable, Black Powder-Coated Finish
- Folds Together For Compact Storage

MAXIMIZE YOUR PUSH BUMPER!

Best Bike Rack Carrier options for Police Vehicles

When you need to carry your bike by car, you want to do it as easily and securely as possible. That's why we recommend the Setina Police Bike Rack as the best option for carrying two bicycles on your Push Bumper. After researching more than 220 bike racks and testing about 70 in recent years, we've found that the Setina Bike Rack offers the best combination of solid construction, ease of use, is light weight, and is at a reasonable price.

Patent No.
D933,579

Simple, Easy, Effective

Of the hanger-style hitch racks we tested, this is one of the easiest to install and use. Its lightweight, Aluminum holds one or two bikes securely, and lets you access your vehicle even when the rack is loaded.

And for style-conscious riders, the Setina Police Bike Rack looks great, with its Black powder-coat finish and Soft nylon accents.

No Tools Or Assembly Required

Simple Design Integrates with most Setina Push Bumpers. Zero contact with frame.

Front Loading Rack

Aerodynamic bike mount on your vehicles' Bumper. Carries two complete bikes. No wheel removal needed.

Setina's "XL" Xtra Legroom Partition Design

Our Most Popular Design

Setina's® patented line of "XL" Side Curtain Airbag Compatible Partitions. Based on our popular Space-Saver, "RP" Recessed Panel design with Xtra Legroom. Our Suspended Mounting System anchors to vehicle's B-Pillars, eliminating partition floor mounting brackets with no foot obstructions in vehicle foot well area.

Maximum Clearance for Entry and Exit

Unique Open Contoured Design provides officer with the easiest prisoner loading and unloading. Recessed storage panel between front seats provides extra space for consoles, mounting vertical gun locks, other accessories and gear.

"XL" Xtra Legroom

Modified steel framework provides strength with no leg obstructions for maximum design strength. Enlarged passenger side back panel recess also provides additional leg and foot room that prevents foot entanglement while offering maximum leg room for both officer and prisoner.

SETINA HAS YOUR STYLE

SETINA

The Setina Difference

PRECISION MOUNTING IS A CRITICAL PART OF OUR DESIGN

Setina's "BodyGuard" Partitions are Professionally Designed for maximum strength, durability, and ease of installation. All Partitions feature welded and formed steel construction, heavy duty roll bar style framework, and are finished using a multi-step powder coat process for added durability.

Superior, Laboratory Tested Side Curtain Airbag Compatible Mounting Systems are designed to mount to the strongest points inside the vehicle. Creating Space-Saving efficiency for maximum driver and passenger legroom.

Coated Scratch-Resistant Polycarbonate Lexan® is the Standard in Setina Partition Windows and recommended to our Customers, to prolong the life and clarity of your window, and comes with a 7 year manufacturer's warranty against breakage.

Single Transport Solutions

AVAILABLE FOR SEDANS, SUVs & TRUCKS

Single Prisoner Transport Partitions provide a secure area to transport the detainee, while maximizing driver comfort and accessory storage.

Setina Single Transport design includes a full roll bar-type framework for added structural integrity for your vehicle.

The unique S-Bend Design positions the Single Prisoner Transport Partition further back on the Driver's Side than on the Passenger's Side, providing full driver's seat travel and recline.

Front partition window available with Coated Scratch-Resistant Polycarbonate (Lexan) or with Vinyl Coated Expanded Metal. SUV's Require a #12 Rear Compartment Partition (*Not included*)

Maximum Ventilation

All Setina Single and Dual Prisoner Transport Partitions are designed with ventilation holes, allowing for maximum airflow for rear passengers.

Ventilation holes are covered to prevent prisoner contact and the hiding or transferring of contraband.

Single Transport Seating System

Advanced design "TPO" Transport Seating Systems is available in optional Full Replacement Style or "Precision Fit" Cover Style design.

When the Single Prisoner Transport Partition is installed with a "TPO" Seat, Floor Pan and Door Panels, it gives your vehicle an OEM factory appearance.

Single Prisoner Transport with Factory Seat

Partition available with Coated Scratch-Resistant Polycarbonate or Vinyl Coated Expanded Metal Window
(*Rear Partition Sold Separately*)

Single Prisoner Transport with full TPO Seat

Partition available with Coated Scratch-Resistant Polycarbonate or Vinyl Coated Expanded Metal Window
(*Rear Partition Sold Separately*)

Convert Your Existing Partition to a Dual Prisoner Transport

Setina's Dual Prisoner Divider Wall Kit allows you to convert your existing partitions to a Dual Prisoner Transport System.

SETINA

Dual Prisoner Transport For Law Enforcement

Convert Your Existing Partition to a Dual Prisoner Transport

Setina's Dual Prisoner Divider Wall Kit allows you to convert your existing partitions to a Dual Prisoner Transport System for the Separate Transport of Two Detainees. Made of Impact and Scratch Resistant Coated Polycarbonate for added strength and product longevity.

Our Dual Prisoner Divider Wall Kit is designed to Easily Mount to your Existing Prisoner Transport Partition, which separates suspects from rear cargo and front passenger and driver. (pictured left)

Dual Prisoner Transport Panel Kit

Maximum Ventilation

All Setina Single and Dual Transport Partitions are designed with ventilation holes, allowing for proper airflow for rear passengers.

Ventilation holes are covered to prevent prisoner contact and hiding or transferring contraband

(SUV'S Require a Model # 12 Rear Compartment Partition)

SETINA

OEM Replacement Seating

Prisoner Transport Systems

- Stand Alone, OEM Replacement Seating Systems.
- Contour design for Maximum Prisoner Legroom and Contraband Control.
- Center Pull Seat Belt System eliminates Officers' need to reach across suspect to buckle seat belt.
- Available with Original Center-Pull Seat Belt System or with SmartBelt Electronic Seatbelt System.
- Molded seat back recess provides additional space for suspect's handcuffed arms.
- Heavy Duty, Moisture and Pathogen Resistant.

THE "TPO" ADVANTAGE

WHAT IS TPO? "TPO" or Thermoplastic PolyOlefin is the highest automotive grade polymer (plastic) used as "the standard" by the auto industry. "TPO" is shatter, flame and chemical resistant and exceeds NHSTA regulations. It is far superior to ABS plastics.

Setina OEM "Replacement" Seating

Designed for Maximum Rear Passenger Legroom.

SETINA

Precision Fit Seat Cover

Prisoner Transport Systems

Don't Store Your Seat! Setina's "Precision Fit" Cover Style Seating Systems install with a precision fit, right over the vehicle's existing seat. Unlike other models, our Cover Style seating system design eliminates the need to remove and store your vehicle's OEM factory seat. Available with our Advanced Center Pull System or our Newest Electronic "SmartBelt" System.

- Laser Measured for Precision Fit.
- Installs right over the vehicle's OEM seat, eliminating the need to remove and store your factory seat.
- Designed to maintain the Optimal Rear Seat Occupant Placement.
- Center Pull Seat Belt System eliminates Officers' need to reach across suspect to buckle seat belt.
- Available with Original Center-Pull seat belt system or with our Electronic SmartBelt Seatbelt System.

Precision Fit Cover Seating

Cover Style seating system design installs with a precision fit, right over the vehicle's existing seat.

ELECTRONIC SEATBELT SYSTEM

JUST CLICK IT!

Setina's Smartbelt

Setina's "SmartBelt" System is the Latest Technology in Center-Pull Seatbelt Design.

WHEN BELT IS BUCKLED:

- Seat Belt Retractor is Electronically Locked in "Retract-Only" Mode.
- Retractors Automatically Lock to Secure Detainee.

WHEN BELT IS UN-BUCKLED:

- Warning Light Activates, Notifying Officer.
- Retractor Unlocks, allowing "Free-Spool" of Belt.

THE SMARTBELT FEATURES:

- Automatic Electronic Retractor Locking System.
- Retractor Locking Mode Alert Light.
- Stays in Lock Mode even during power loss.
- FMSS Approved Components.
- Quick, Easy Installation.
- Compatible with Replacement, Cover Style or Factory Seats.
- Retrofit Kit available for standard center-pull seat belt systems.

LOCKING SYSTEM

PATENT NO. US 11,104,296

ALERT LIGHT

- Notifies Officer if Detainee is Unbuckled.
- Easily mounts to console, partition, or dash.
- Radio console not included.

PATENT NO. US 10,688,960

SETINA

Laboratory Tested

FMVSS 207/210 COMPLIANT CENTER PULL SEAT BELTS

Setina's Center Pull Seat Belt System is uniquely designed for the seat belt buckle to be docked in the "Park Position" on the prisoner partition when not in use. When belting the suspect for transport, the officer simply moves the buckle from the "Park Position" on the partition to the outer latch "Transport Position" on the transport seat, eliminating the need to reach across suspect, significantly reducing officer contact with the rear passenger.

REAR OCCUPANT BODY PLACEMENT

Proper Rear Seat Occupant Placement is a critical part of The Automaker's Engineered Airbag Deployment Systems. Setina's® Advanced Airbag Compatible Design maintains the Rear Seat Occupant Placement.

Available with Vinyl Coated Expanded Metal or Coated Scratch-Resistant Polycarbonate Windows.

(SUV Models require a Rear Cargo Compartment Partition.)

C E N T E R P U L L S E A T B E L T S

FEDERAL MOTOR VEHICLE SAFETY STANDARD 207/210 COMPLIANT SEAT BELT ASSEMBLY

- Professionally Designed and Laboratory tested to meet the rigorous 207/210 FMVSS Seat Belt Standards.
- Maintains OEM's Body Position for Airbag Deployment.
- Seat and Belt System Designed for Officer and Occupant Ease and Security.

When belting the suspect for transport, the officer simply moves the buckle from the "Park Position" on the partition to the outer latch, "Transport Position," on the transport seat.

Simple Solutions For Complex Firearms

VaultLock Features

- Enclosed, one-piece, shroud and lock design.
- Provides added protection to critical firearms components.
- Prevents firearm's disassembly by making take down pins, magazine and trigger inaccessible.
- Secured with Tamper Proof Security Fasteners.
- Rounded "Anti-Scuff" strips for easy Firearm Removal and Insertion.
- Adapter plate for Weapon flexibility.
- Fits most configurations of AR-15's, and M4's with collapsible stocks & rails.
- Compatible with firearm accessories.
- Provides Quick, Easy Firearms access.
- Compatible with any Setina Dual or Single T-Rail Firearm Mounting System.
- Heavy Duty, Light-Weight Aircraft Grade Aluminum.

T-RAIL TECHNOLOGY

T-Rail Weapon Systems provide maximum adjustability and flexibility to accommodate multiple weapons and lock heads. Available in Double or Single Mount models, with Universal, Small, Large, "VaultLock", or Blac-Rac lock options. Fits XL, Recessed Panel and Flat Panel Partitions.

TACTICAL WEAPONS MOUNT FOR LAW ENFORCEMENT

BLAC-RAC'S® design is the most Versatile, Compact Weapons Retention System Available. Multiple Weapons, Multiple Locations, Multi-Purpose.

Available In Electronic Or Manual Models.

- Accommodates all weapon platforms.
- Optics Friendly for Scopes, Optics Lights or Lasers.
- Handles 30 round magazine when firearm is mounted.
- 360 degree swivel and 45 degree offset positioning.
- Adjusted for Slim or Wide Receiver Firearms.

4130-M Shotgun Weapon Mount

- Machined from aluminum billet for superior strength.
- Retains weapon even if unit is unlocked.
- Secures weapon tightly to reduce vehicle vibrations.
- Side saddle and optics friendly.

FIRST TRUE TACTICAL WEAPONS MOUNT FOR LAW ENFORCEMENT

*For shotguns, automatic weapons or less than lethal weapons.
The most versatile, compact weapons retention system
available. Multiple Weapons, Multiple Locations, Multi-Purpose.*

THE COLD WIRE®

Modulator, in conjunction with The BLAC-RAC Electronic "E" Models Eliminates Hot Wiring.

Combat-Hot Wire With Cold Wire®

TECHNICAL INNOVATIONS IN FIREARMS SECURITY

The COLD WIRE® Pulsed Power Modulator, in conjunction with the BLAC-RAC® electronic "E" models are the ultimate secured weapons retention systems.

Cold Wire® Features

- Complies with SAE J994 Type C.
- Connect directly to siren/control box.
- Undetectable inside vehicle.
- Proprietary code generator & receiver.
- Non-radiating (No EMI).
- Easy Installation.
- Cannot be "skimmed" or detected.
- BLAC-RAC® weapons systems compatible only.

Blac-Rac® 1082 E Features

1. Proprietary integral key lock, key cannot be copied.
2. Durable, glass-filled nylon handle.
3. Vertical motion handle allows installation in tight spaces.
4. Over-the-center clamp action retains weapon in unlocked position.
5. Slam latch allows quick closing.
6. Eccentric pistol grip rest field adjustable to fit a variety of weapons.
7. Exclusive, non-marring pads secure weapon, protect contact points.
8. Reinforced trigger post.
9. Internal encapsulated microprocessor standard delay of 8 seconds before re-locking.
10. Single point mounting base, for unlimited mounting options.
